APPLICATION FOR WATER SUPPLY LICENSE

Denver Water Personnel Only		Application Date:
Premise ID:	Tap/Plan ID Number:	

3. Cross-Connection acknowledgment

This water service may require a backflow prevention assembly (BFPA). Please call Denver Water's Cross Connection Control group at 303-628-5969 to determine the type, model, size and location of the BFPA. Failure to install a BFPA in accordance with Denver Water's Engineering Standards may result in re-inspection charges and added construction cost prior to setting the meter.

I have read and understand the above statement regarding the BFPA

Initials

4. Distributor acknowledgment (required only if outside City & County of Denver)

If property to be served is Outside City & County of Denver, the Distributor must complete the following (print form and obtain Distributor's signature):

I authorize a _____ -inch tap to be attached to _____ facilities.
Size Name of Distributor

Distributor Representative's Signature and title Date

Print Name Contract number

This Water Supply License application is made under and subject to the following conditions:

- This License application is subject to the Charter of the City and County of Denver acting by and through its Board of Water Commissioners ("Board"), Operating Rules and Engineering Standards as they may be changed from time to time.
- When approved by the Board, this document constitutes a License to receive water service at the above property address within its legally described boundaries from the system owned, operated or served by the Board.
- The OWNER/AUTHORIZED AGENT is the owner of the premise described herein or is the authorized agent of the owner.
- Water service is limited to water available under the conditions which exist from time to time. The Board DOES NOT GUARANTEE to maintain conditions such that the premise can receive uninterrupted supply of water. The Board accepts no responsibility for the size, connection, pressure, location, or method of operation of any distribution mains or service lines not owned and operated by the Board.
- The tap must be reasonably sized in relation to the size and use of the licensed property in the judgment of Denver Water.
- Charges due accrue against the property. Water service may be suspended whenever any charge is past due. Service may also be suspended, and this License may be deactivated or revoked for violations of Denver Water's Operating Rules.
- OWNER/AUTHORIZED AGENT agrees to pay such rates, fees and charges, as established by the Board from time to time.
- The OWNER/AUTHORIZED AGENT understands the Water Supply License must be activated as required in the Operating Rules and Engineering Standards of the Board in order to receive water.
